

THE GENTLEMEN'S CLUB OWNERS EXPO

The first-ever "TECH TALKS"

We've all heard of the famous "TED Talks," where an expert on a specific topic shares their expertise within a limited time frame. At EXPO 2020, we're introducing a similar concept — "Tech Talks" — where **six of the industry's hottest tech companies** will be allowed the opportunity to tell club owners and operators why their product can help bring a club into the 21st century from an operational standpoint.

NOTE: This opportunity is **limited to just six companies**, and those companies must offer a product that is specifically designed to introduce new technology or new expertise into their daily club operations.

The opportunity: You will have 7-10 minutes to present your company's product to a crowd of club owners and operators. You will also be able to bring promotional material for your company that will be available to all seminar attendees.

These limited slots are available to EXPO 2020

Tradeshow Exhibitors for just \$3,500*

(*the cost for non-exhibitors is \$5,000)

These six slots will sell out fast! To secure your EXPO "Tech Talk" today, call Kristofer Kay at (727) 726-3592 or email kris@edpublications.com!
